MISTY MORNING. The fog rolled in over Catalina Island last week, blanketing the city and the surrounding harbor. Few people were bothered by it, however, including the photographer who captured the view in this photo.

Proposition B determines waterfront future

by Julie Schoeneberg

A completion date for Avalon's waterfront restoration project, which is targeted at rehabilitating the city's downtown and beachfront areas, hangs in the balance with the upcoming Nov. 6 election.

Voters will be asked to decide whether or not they want to repay a \$4 million per capita grant from Proposition B through a \$10-a-year property tax levied upon real property for 20 years or let the issue be funded through the city budget. The waterfront project's

completion will take about one year through Prop B, says City Manager Chuck Prince, or 10 to 15 years if the proposition doesn't pass.

"No other measure on the ballot has the kind of impact Proposition B has for Avalon," says Prince. "But if Prop B doesn't pass, the waterfront project will have to be funded piece meal out of each budget year."

That means about \$100,000 to \$200,000 every other year, he adds, and the project will be done over a longer period of time.

Commission haggles over rental laws

by Chris Abel

Members of the Avalon Planning Commission last week held over a final recommendation on a proposed change to the municipal code which requires conditional use permits (CUP) on transient rental units.

The code currently states that any landowner who rents a room, apartment or condominium be required to obtain a CUP from the planning department.

However, some members of the commission considered the code to be directed mainly at "bed and breakfast" operations in residential areas and cause undue hardship for the owner who is either renting vacation units or year-round housing.

The staff recommended that the commission consider making a determination that those units where no meal service is provided as part of the rental service be excluded from the CUP requirement.

Assistant City Manager Pete Woolson suggested to the seven commission members that perhaps the CUP mechanism may be appropriate as a means of protecting much needed year-round housing.

"We can try to direct land use

Oct. 29	73	53

The average water temperature was 67 degrees.

Serf auction nets \$2,500

by Julie Schoeneberg

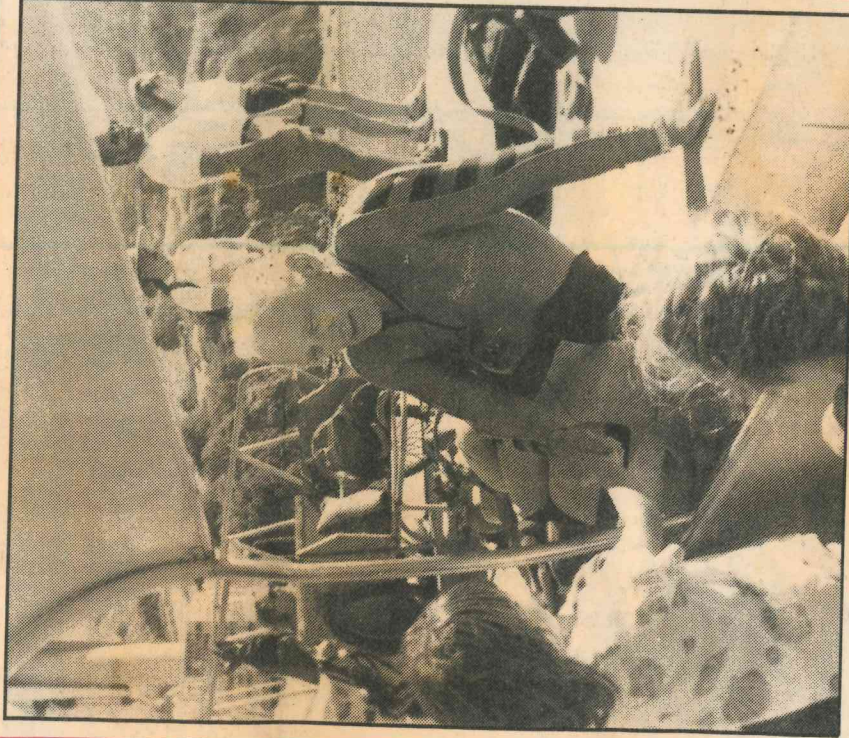

Avalon Community Services Oct. 23 serf auction, held in conjunction with the Catalina Island Chamber of Commerce mixer, raised more than \$2,500 for the ongoing Proposition B campaign.

The event, which was held to help support the Los Angeles County Safe Neighborhood Parks Act (Prop B), began

with 11 different items and services tagged for auction, including a round the Island journey complete with lunch and Capt. Jon Hardy, a gourmet dinner behind the bars of Avalon's jailhouse, a romantic lunch at a secluded beach along the coast, and a gourmet Italian feast for four

ACS students raise \$4,300 for school

by Julie Schoeneberg

Avalon Christian Schools' Second Annual Run/Walk event will raise nearly \$4,300 for school improvements, scholarships and various field trips if all the money pledged by area residents is collected.

About 20 students from the school met the challenge last week and trekked the full five miles from the Casino to Descanso Beach and back 25 times. It was a complete success, according to fund-raiser Kelly Nelson, and the weather couldn't have been more perfect for the event.

"It was a real blessing for the school," she says. "Every single one of the kids completed the

course. We are very pleased with the outcome."

The money raised in the form of pledges per lap or in a fixed amount will be used for school improvements, scholarships for students who can't afford the school's tuition and field trips for

Every single one of the kids completed the course.

Kelly Nelson

both honor roll students and regular students. According to Nelson, last year's event allowed school administrators to build a second room at the school, and the students were sent on two camping trips and visited a water park at the end of the school year.

Competitors gear up for grueling triathlon

by Chris Abel

Nearly 400 competitors will hit the water Saturday morning at the start of Catalina's grueling Sixth Annual Triathlon.

The three-phase event will begin at 9:15 a.m. at South Beach with a half-mile swim into the harbor, around the Pleasure Pier and back. Water temperatures are estimated at 67 degrees.

With their bikes waiting for them on Crescent Avenue, the athletes will take off on a 14.5-mile race that will take them out Pebbly Beach Road, over Mt. Ada and up Avalon Canyon to the Memorial Gardens twice before returning to Crescent.

"The cyclists will be traveling at highly competitive speeds," says volunteer race director Pat Sherman. "For everyone's safety, the Santa Catalina Island Company has agreed to close Pebbly Beach Road, Wrigley Road and Avalon Canyon Road."

These roads will be closed between 9:30 a.m. and 10:45 a.m.

The cyclists will return to Crescent where they started and

begin the final four miles of the event on foot. This route will take them twice over Hog's Back, down Country Club Road and back into Avalon to the finish line near Wrigley Plaza.

Previous competitors in earlier Catalina Triathlons will include Emilio DeSoto who placed third last year and won the race in 1988 with a time of 1 hour, 6 minutes, 50 seconds.

The course record was set in

Be sure to take some time out to come watch and root for the Islander triathletes as well.

Pat Sherman

1987 by Michael Durkin who finished in 1 hour, 4 minutes, 29 seconds.

Also returning this year will be Suzanna Sandrock who finished first in the women's division last year with a time of 1 hour, 17 minutes, 51 seconds.

Winner of the first and second annual Catalina Triathlons, Mark

Mask creators bag pumpkins

Everyone who participated in Catalina Souvenir Shop's ninth annual paper bag mask contest was a winner.

All 29 of the Island children, up to 6th grade, who brought in their best creation last Sunday walked away with a pumpkin on Monday.

"We had a great turn out," says owner Beverly Brisacher who has sponsored the popular event each year. "They really did some cute masks."

With the help of her employees, Brisacher made sure that every child felt like a winner by sticking a handmade trophy ribbon to each mask.

Some of the best in specific categories were Pastor Lopez for Best Monster, Joey Talsky for Ugliest, Sarah Curtin for Spookiest and Ivonn Barriga with the Funniest.

Christina Calise made the Best Pumpkin face. Best Animal went to Stacy Lima, and Lauren Calise made the Prettiest.

Most Colorful went to Monique Pantoja, and Valerie Smith won for Most Artistic.

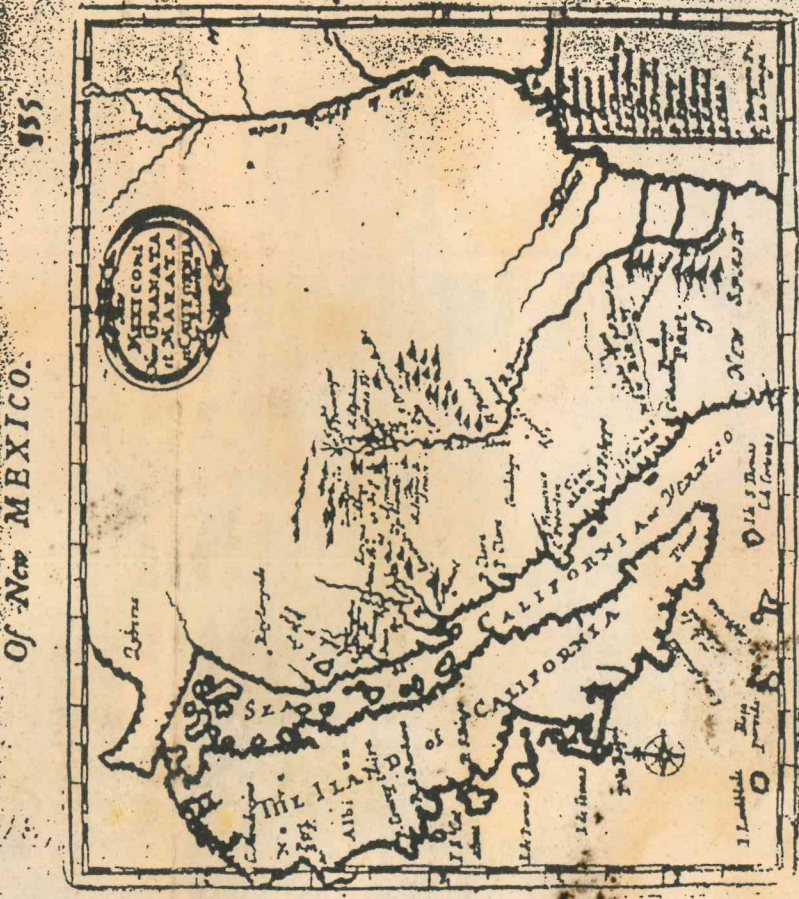

The best in grade 2 went to Bonnie Marshburn, and Maureen Grissom won for grade 3. Shelley Kennedy's mask was judged Best Overall.

IT'S IN THE BAG. Some of the spooks in Catalina Souvenir Shop's annual Halloween paper bag mask contest model their winning disguise along with their pumpkin prizes.

Of New MEXICO.

WE of Florida, and North of New Spain, there are numerous Indian habitations, and various Provinces and Countries little known by the Europeans, which I call in general *New Mexico*; others comprehend them under the name of *New Granada*, however there have been observed divers people very different in their Languages, Manners and Customs, some having fixed and settled Habitations, others wandering after their flocks, some dwelling in Cities or Towns, others in Herds, or Troops like the *Taras*. This Country was first made known to the Spaniards by the Travels of *Fray Marco de Niza*, inflamed by whole reports of *Agave de Canas*, in the year 1540, undertook the further discovery thereof, where not finding what they looked for, Gold and Silver.

This particular rare map of California as an Island, shown actual size, was drawn in 1688 and published in 1695 by Robert Morden in his book, Geography Rectified. The map and text from page 555 and 556, is framed in rich wood parquet and matted under double sided plexiglass. Christmas sale price is \$1,795. Also available are 17th century maps of Italy and the Mediterranean Sea from the Jansson/Hondius/Mercator Atlas published in 1633-1641. Many other rare and antique maps are available.

Moonwalker visits Two Harbors

by Doug Oudin

In a small Island community such as the Isthmus, one of the least likely visitors one would expect to encounter would be one of the United States' most illustrious astronauts.

But this week at Two Harbors, not one but two of our countries' premier space travelers paid a visit to the Island. Moonwalker Buzz Aldrin and Space Shuttle Specialist Kathy Sullivan participated in a two-day symposium with Sea/Space, an informal group of oceanographers, and government sea, space and earth researchers.

The Sea/Space Symposium was hosted by the University of Southern California Marine Science Center at Big Fisherman's Cove. About 40 individuals participated in the two-day exchange, focusing primarily on scuba diving research off Catalina's West End.

Aldrin, the second man to walk the moon, thrilled the children of Two Harbors School by greeting them as he arrived via helicopter at the USC facility. He then proceeded to talk with the school children about his space travels, background and training. Before departing on a scheduled scuba diving trip, Aldrin personally signed pictures each child had drawn in class in anticipation of his arrival.

Sullivan, prominent specialist in the development of the Hubble Space Telescope project and three-time Space Shuttle astronaut, also spoke briefly with the children and teacher Becky Davidson. Another notable celebrity among the gathering, actor Hugh O'Brien, also made quite an impression on the school children.

Signs of winter are evident this week as the majority of the docks and floats have been removed from the coves at the West End. The mild Santa Ana conditions which have prevailed through the last few weeks have not brought any significant winds to the Island, but the threat is there, although offshore winds typically do not reach the Island until there is snow on the local mountains.

The mild and pleasant weather continues to encourage visiting boaters. About 200 boats enjoyed another fine Catalina weekend. Corsair Yacht Club of Emerald Bay held their season ending Commodore Cruise. About 30 boats turned out for the event.

The Two Harbors Fall Classic Golf Tournament was held on Monday at the Avalon links. Twenty-three of the Isthmus golfers played in the four-man

ONLY IN AVALON

Over a period of many years Sally and the late Jess Lopez collected and preserved Island Indian artifacts which are on permanent display at the airport. When the pier was being rebuilt a couple of years ago, Sally was astounded to find a perfect black obsidian arrowpoint near the water's edge. Thousands of people are on Avalon's beaches every year and little do they know what treasures abound.

Between Two Harbors

of Robby Howard.

scramble event. Reigning champions Gary Adams, Brent Houghton, Chris King and Jim Coffman (standing in for Bruno Williams) once again walked off with low score honors. Their 18-hole score of seven under, 57, easily beat out the second place team of the Wicklund brothers, Bill Hardy and Ray Smith.

Best shot awards went to Russ Wicklund and Randy Arnold, whose nine iron shot on hole No. 2 nearly went in. Arnold's shot earned him dinner for two at Doug's Harbor Reef Restaurant.

The fearsome foursome of Tom Ochs, Nathan Eddy, Chris Gentry and Greg Allen walked off with DFL honors after carding a bogey on hole No. 18. Still, their three over par total 67 is quite respectable for players of their caliber.

A bridal shower for Susie Sampley and Chris Scholes took place at the home of Kathy King last Saturday evening. With a mixture of females and males attending the pre-nuptial affair, some of the anticipated female antics were curtailed in deference to the males in attendance. Nonetheless, a good time was had by all, and the barbecue prepared by Randy Phelps was very well done.

Nine members of the West End Cruising Club Epicurean Society journeyed into Avalon Sunday evening where three of the culinary impressarios were initiated to the fine art of golf. Following the round, the connoisseurs of fine food partook in a veritable feast at the Channel House Restaurant of Avalon. The Avalon outing, first of its kind for the society, was made possible through the magnanimous gesture

Nine-year-old Trevor Oudin hooked and landed a 29-pound white seabass on Tuesday evening last week. He caught the big fish while fishing with his dad, Uncle Mike and David McElroy, who were fishing with conventional tackle and live mackerel for bait. Trevor, however, was using a rock cod skirt hooked onto an old rusty jig. His fish was the only one caught.

**Gym construction hassles classes**

by Jennifer Reynolds

Everyone knows the gym is being replaced at Avalon High School. But do they know what students go through every day while that process is going on?

As I sit in class, I can hear the crumbling of the dirt being scooped up by the large machines, making noises like monsters. It's only 8 a.m., and it seems like it's been going on for hours.

The teachers' voices are giving out as they try to talk above the rumble. It's hard to believe it's only the beginning.

My attention is being stolen

by loud cracking, pounding high-pitched noises. It has become hard to concentrate. In fact, as the bell rings, it's not a sound that makes you jump out of your seat anymore.

When I walk up the outside stairs to my next class, I can't resist staring at the bare dirt lot. The one area that all the younger children played on, the lot we grew up playing on, is now being torn up. The large, yellow monster that grabs and crumbles dirt and asphalt like peanut brittle has destroyed a personal landmark.

But it isn't just the playground we miss. It's also the old Wrigley Field House, our gym, a special place we used for dances, assemblies, basketball, physical educa-

tion and even graduation. We've managed to live without it, but it has been a long struggle. We have traveled to the mainland almost every weekend in basketball season, except for the year the Catalina Island Company loaned us the Casino. We have had dances in the cafeteria or no dances at all.

"It will benefit you all in the future," said Mark Ur, Avalon Schools principal, at the groundbreaking.

We know it's true, but to the 28 of us who are graduating this year, it's hard to be positive.

Hopefully, this year will be the last one without a gym, and next year, the underclassmen will benefit from this long process.

Annual carnival a repeat success

by Terri McAdam

The annual Avalon School Carnival, held on Oct. 26, was a big success.

The PTA's spaghetti dinner started things at 5 p.m. with

desserts baked and sold by the senior class, the cake walk, featuring the junior class's baked goods, and the sponge throw, manned by eight graders willing to suffer a soaking to raise money for their class.

Some highlights of the carnival were the popular haunted house, created and haunted by the

Lancers blow away Montessori

by Mario Ramirez

The Avalon Lancers soccer team exploded during the final roadtrip of the season in Pomona Oct. 27, blowing away Montessori 10-0 and bringing the Lancers closer to a possible league championship.

They controlled the opening tip off and scored on an easy breakaway goal by Victor Moreno in the first half of play. The Lancers' defense of Jonathan Burcomb, Lorenzo Gonzales, Brennan Evans and Daniel Moreno made it easy for goalie Chris Clark.

The Lancers dominated the game from beginning to end, and Moreno was unstoppable, finishing the game with four goals. Randy Burr also chipped in for his first two goals of the season while Omar De la Rosa helped with two goals to make the score 8-0.

But the Lancers weren't done. They scored two more goals, one by Juan Romero who also contributed to the cause with four assists, and another by Martin Chavoya. The Lancers took a total of 46 shot attempts but held Montessori to only six.

It was a fairly easy game for sophomore Chris Clark who made two great defensive plays to keep Montessori from scoring. The Lancers' defense has only allowed two goals in five games.

Their record is now 3-1-1, putting them in the battle for the league championship. They end their season Nov. 3 in a game against long-time rival Holy Marys.

Looking for Quality Property for our long list
of clients for the 1991 season.

Sonlight remains undefeated

The second Sunday of the Catalina Men's Softball League saw the Glenmore Hotel get its first win, a 14-10 victory, over an outmanned Abe's Liquor team.

Abe's started scoring in the bottom of the second with two outs and Ken Trainer at first on a fielder's choice. Lolo Saldana walked and Richard "Brown" Felix followed with a double to score Trainer.

Abe's added another run in the third on a couple of walks and an error by Glenmore. In the top of the fourth, Glenmore went to work as they scored seven big runs on five hits and two walks. The big blow came with Brent "Lambier" Houghton's double.

Abe's scored four runs in the sixth, but Glenmore was leading 10-7 by then and coasted to the 14-10 win.

For the losers, Mario Jimenez continues to pound the ball as he went 3 for 4 with a homer, his second in as many games. For the winners, Houghton went 3 for 5, and five players got two hits - Jay Gott, Ben Brown, 8-3.

John Roark, Jim Amoroso and D. Gruber. The winning pitcher was Rafael Ramirez.

The second game of the day matched two unbeaten teams, and one of them was going to stay that way.

In the first inning, SCI scored the first two runs in the game after a triple by Johnny Machado and a Sonlight error. After that, pitcher Phil Cook got a little tougher while his teammates kept him and their team in the game with excellent defense, especially in the sixth inning with the score 5-2 in favor of Sonlight.

SCI Co. had the bases loaded with no outs when Tino Rodriguez hit a line drive headed for the gap in right field. But Doug Jann jumped as high as possible to grab the ball and turned it into a double play. A fly ball to left field ended the first half of the inning with Sonlight leading 5-2.

Sonlight then scored three runs in the bottom of the sixth to break it open, leaving SCI behind 8-3.

For the losers, Machado went 3 for 4 with a triple and one over the fence. Rodriguez also went 3 for 4.

For the winners, Jose "Chuy" Sillas went 3 for 4, and Kenny Harrell went 2 for 4. Jesus Rodriguez, Doug Jann and Pin Rodriguez all went 2 for 3.

The winning pitcher was Cook.

The last game of the day saw Jones Plumbing still having a bit of bad luck as one of the top draft choices, Troy Neilan, broke his finger and had to leave the game in the fourth inning. We sure hope that Troy isn't badly hurt and can come back soon.

The game was won by Catalina Express 8-3. The winning pitcher was Bob O'Guin who also went 2 for 4.

For the losers, Scott Plechner went 2 for 3, and Joe Saldana batted 2 for 4.

Next week's schedule: •10:30 a.m. SCI vs. Catalina Express; •12:30 p.m. Sonlight vs. Glenmore Hotel; 2:30 p.m. Abe's vs. Jones Plumbing.

Former All American visits Islanders

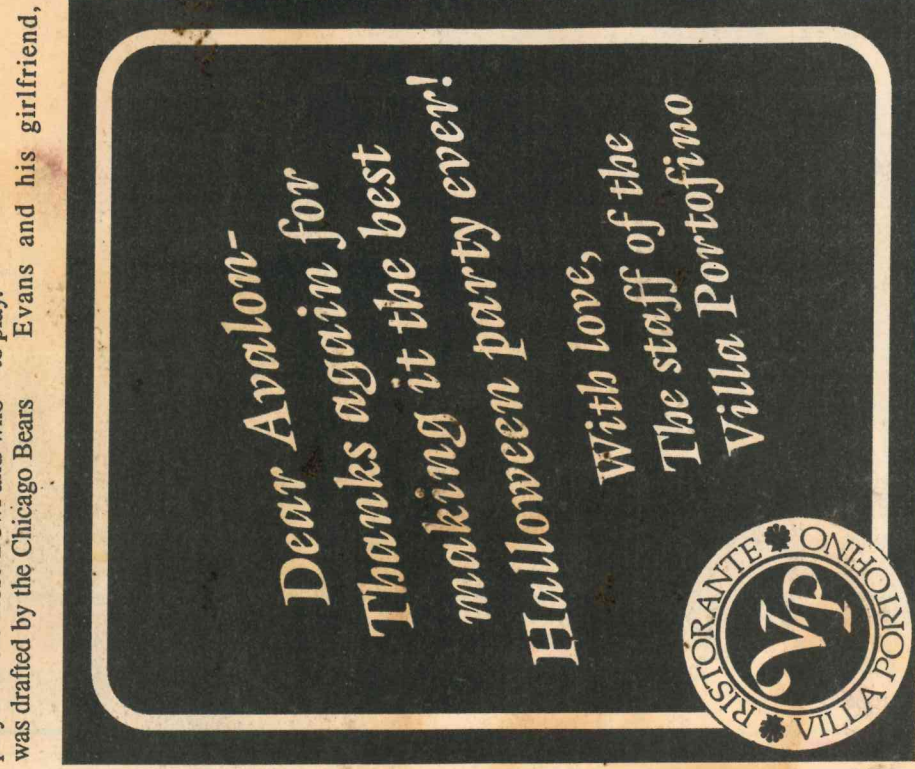

Dr. Jack Wall and his wife, Nita, were pleased to entertain old friend Vince Evans last week. Evans, who is an All American quarterback, most valuable player in the Rose Bowl and who was drafted by the Chicago Bears

Linda, could only spend the day on Catalina Island. They gave the Walls and the Island their love and promised to return after the football season ends.

Evans and his girlfriend,

*Dear Avalon-
Thanks again for
making it the best
Halloween party ever!*

*With love,
The staff of the

Avalon Church News

Film series continues

one is invited to attend.

This Communion Sunday, Pastor Ron's sermon entitled "The Table of the King" comes from the story from scripture found in 2 Samuel 9:11-13.

The traditional morning service at the Avalon Community Church is at 10 a.m. in the church sanctuary on the corner of Metropole and Beacon.

The Sunday evening service is at a more informal time of worship and teaching in a discussion format. This Sunday, a continuation of the family film series, Turn Your Hearts Towards Home, will be shown during the evening service. The sixth film of this series, "The Heritage," is scheduled. This film is free, and every-

Auxiliary

gathers for last meeting

On Nov. 5, the Avalon Hospital Auxiliary will meet in the Oak Room at the hospital at 1:30 p.m.

Everyone is urged to attend this important meeting which is the last meeting for the year.

• Prop B weighed Nov. 6

(continued from page 1)

improvements, beach facilities, tree-planting and recreation. They say the advocates of Proposition B neglect to discuss what they are really after - more of taxpayers' hard-earned money.

Also included in the proposition as special line-item allocations is a \$1.7 million per capita grant for Santa Catalina Island and a \$40,000 allocation for Avalon Parks and Recreation.

According to Doug Probst, president of the Catalina Island Conservancy, the \$1.7 million is targeted for use in the Island's interior. His ideas, however, do not coincide with the state's.

"They want to put in a nature center at Haypress," Probst says, "but I told them we've already turned that one down. We have one at the airport, so it doesn't make a lot of sense to put in another five miles down the road."

Instead, Probst suggests the money be used for improvements at Ben Weston, including campsite restoration, public restrooms and overall maintenance.

"That was something they were supposed to have already done," he says. "If we don't like what they plan, we can turn their idea down."

CALENDAR COMING

The staff of *The Catalina Islander* is introducing a new weekly section to the newspaper entitled Calendar of Events for both residents of Catalina Island and its visitors. Below are upcoming events for November and December.

Send us a brief item about your special event for publication in the Calendar of Events. Bring it by *The Catalina Islander*, 615 Crescent Ave., or mail it to P.O. Box 428, Avalon, CA 90704. Information and photos, which must be in by Monday at 5 p.m., will be run on a space available basis.

November 1990

All Month Avalon Community Church's Meals program begins for families or individuals in need of a nourishing meal. The program takes place inside the Fellowship Hall on the corner of Metropole and Beacon Sundays at 5 p.m.

2-4 "Love that Lasts Forever" Christian Women's cruise from Float 4 to Campus By The Sea departs at 5 p.m.

3 Annual Catalina Triathlon starts at the Pavilion Lodge at 9:15 a.m.

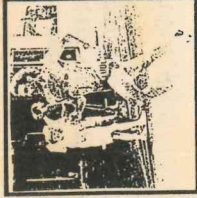

11 J.L.'s Locker Room will sponsor an invitational golf tournament at 9 a.m. on Avalon's nine-hole golf course. For more information, call 510-8258.

All Month Christmas Tree Lane welcomes visitors to view lights and decorated homes along Daisy Ave. between Pacific Coast Hwy. and Willow St., 590-6816.

All Month Gene Murrell appears Tuesdays at 11:00 inside the Catherine Hotel. For more information, call 510-0170.

9 & 12 Azure Seas will offer special entertainment cruises featuring the Gene Kruppa Orchestra and Barbara McNair. Call your local travel agent for more information.

11 Texaco Long Beach Shoreline Half Marathon begins. The race includes the largest wheelchair half marathon in the country. Race begins at 7:30 a.m. at the Long Beach Convention Center, 300 E. Ocean Blvd., 591-0539.

prepared and served by City Manager Chuck Prince. As the evening wore on, those attending grew more enthusiastic, says Community Services Director Anni Marshall, and the services available totaled 20 after it was over.

Proposition B on the Nov. 6 election ballot will significantly benefit residents and businesses of Avalon by funding the restoration of the Avalon waterfront, says Marshall. If passed, Avalon and Santa Catalina Island will also receive funds for the most pressing local park and recreation needs.

The Oct. 23 fund-raiser will help the ongoing campaign for Proposition B in the form of radio and television spots and mass mailings.

• Changes in rental laws considered

(continued from page 1)

toward preserving year-round housing," said Woolson. "If we don't take steps to keep our year-round housing, we are at best keeping the current crisis as is."

At the end of the public hearing, the commission agreed to send the matter back to the Housing Advisory Committee for a detailed recommendation.

In other planning agenda matters, the commission held a discussion on establishing a center line point for building height measurements.

Because the roadway width, particularly on the hilly Terrace roads, can vary depending on whether the pavement surface or the right-of-way is used, the staff was advised that discrepancies can exist when measurements are taken to establish the height of any proposed building.

"In cases like the Terraces," said Woolson, "with varying widths, the measurements can be different."

Woolson added that each site plan application would probably have to be handled on a case-by-case basis. Further discussion was held over to a later meeting so the city contact surveyor will be available to participate.

The Planning Department was directed by the commission to distribute requests for proposals from engineering firms for cost estimates on providing complete building inspection, code enforcement and plan check services to the city through a private service.

Currently, Los Angeles County handles these services, but has been taking an increasingly long time to achieve results. The delays, according to the commission, force hardships on builders and contractors who attempt to complete their projects within specified time limits.

The commission approved a site plan revision on a previously approved single family home on Claressa Avenue.

The revision included adding a 60-square-foot bath to the rear of the structure where off-street parking space would have been available had rear access to the land-locked parcel been possible.

Also approved was a site plan request to remodel windows and construct a new porch and cover at the Bay View Hotel on Whitley Avenue.

In minor matters, the commission agreed to a request to withdraw a site plan application and variance request on the remodel of a single family dwelling on Claressa Avenue.

Because of the holidays, the commission agreed to hold the next and final planning commission meeting of the year on Dec. 6.

Miracle Ear® - CALL TODAY!

Melissa Janelle Fertig and Ronald Dale Hoefs, both of Avalon, were united in marriage Sept. 22, 1990, at Avalon Community Church.

Officiating the double ring ceremony was Ron Eroen. In attendance were 140 family members and guests.

The bride is the daughter of Bruce Fertig and Patrisha Fertig, who both live in Avalon. She is the office manager for Dr. Ben Calise, DDS in Avalon.

The groom is the son of Mark and Patricia Hoefs of Avalon and is currently working as a lineman for Southern California Edison.

Melissa was attended by her

MELISSA AND RON

photo by DUNN PHOTOGRAPHY

finished with satin ribbon.

The newly married couple now reside in Avalon after honeymooning in Victoria, Vancouver Island, Canada.

Islander enters Claremont McKenna

Kirsten Doult, daughter of Ron and Barbara Doult, has entered Claremont McKenna College, Claremont, Calif., for the academic year 1990-1991.

Claremont McKenna College is ranked among the nation's top

liberal-arts colleges by a national news magazine. Its curriculum emphasizes political science and economics. CMC is a member of the Claremont Colleges, a consortium of five undergraduate and one graduate school.

Estradas attend baby shower

Kathy and David Estrada spent the weekend on the mainland where Kathy was surprised by a baby shower given by her friends and relatives in San Diego.

Kathy is employed by the county as a dispatcher and is now on maternity leave. David works for Whitehawk of Catalina at Hamilton Cove as a foreman engineer.

The couple has been married for six years and are happily awaiting the arrival of their first child.

Chamber hosts popular service seminar

"According to hospitality industry experts, customer service will be the key factor in business growth during the 90s," reports Joe Caliva, director of sightseeing for the Santa Catalina Island Company and president of the Catalina Island Chamber of Commerce.

In order to assist local businesses in this area, the Chamber will repeat its popular Customer Service Seminar with Jim McJunkin on Nov. 8. The program will be from 9 a.m. to 4 p.m. in the conference facility at the

Catalina Canyon Hotel. McJunkin, owner of McJunkin/Odum consultants, travels extensively across the country conducting customer service and sales seminars. This seminar will focus on:

- why customers stop doing business with a particular establishment; • the "sins" of service; • 10 steps to calm an unhappy customer; • creating a positive professional environment; • the power of listening; • and personality analysis for dynamic customer service.

The fee for this seminar is \$25 per person for employees of Chamber member businesses and employees of the city of Avalon and Los Angeles County and \$35 per person for employees of businesses who are not members of the Chamber. Similar programs offered on the mainland generally cost \$75 or more.

Registration forms are available at the Chamber office. Seating is limited, and reservations will be accepted on a first come, first serve basis.

CATCH of the WEEK

There were no fish brought into the Avalon Weigh Station during the week of Oct. 22 to Oct. 28, a sure indication that the marlin season is over.

Since the first marlin was caught on July 28, 193 fish have been brought to Avalon and weighed. This compares with 393 caught last year, which was an unusually good fishing season.

Although the season began

Nineteen fish have been reported tagged and released.

Though the scales are soon to be shut down, there is a large variety of fish still out there. Some large yellowtail have been reported hooked this past week off the East End.

Until next year, when Weighmaster Rosie Cadman opens her scales and her market on the pier in March, Happy Fishing!

with fish being caught in no specific region, by the end of September it was obvious that the best places to catch "the big one" were outside Avalon Harbor, off the East End of the Island and at the Osborn Bank.

The largest fish, caught by Mike Kilby near Santa Barbara Island, weighed in on Sept. 16. His 215-pounder was one of only three fish landed over 200 pounds.

• Triathlon begins Sat.

(continued from page 1)

Montgomery, will also return to compete this year.

About 20 Islander men and women are expected to participate this year.

Sherman hopes people come out to watch and encourage the athletes.

"Participants love to hear people cheer," she says. "Be sure to take some time out to come watch and root for the Islander triathletes as well."

An awards presentation will be held at Wrigley Stage as soon as all the racers are back at around 11:30 a.m.

One hundred trophies in 20 age groups will be awarded as well as a host of raffle prizes.

ORDINANCE NO. 860-90

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF AVALON AMENDING CHAPTER 2 OF TITLE 7 OF THE AVALON MUNICIPAL CODE RELATING TO EXCAVATIONS

THE CITY COUNCIL OF THE CITY OF AVALON DOES ORDAIN AS FOLLOWS:

Section 1; Sections 7-2.01, 7-2.02, 7-2.03, 7-2.06, 7-2.07, 7-2.11, 7-2.12, and 7-2.13 of Chapter 2 of Title 7 of the Avalon Municipal Code are hereby amended by

substituting "Director of Public Works" in place and instead of "Superintendent of Streets".

Section 2. Section 7-2.03 of chapter 2 of Title 7 is hereby amended to read as follows:

The Director of Public Works shall require a special deposit of a sum of money in proportion to the extent of such excavation as a guarantee for the restoration of such street, alley, or public place to as good and perfect a condition as it was before the excavation. Such deposit shall be in a sum equal to Eight and no/100ths (\$8.00) dollars per each square foot of surface of such excavation to be made in the streets or other public places which have been asphalted.

graveled, oiled, or otherwise improved; provided, however, no deposit shall be less than Two Hundred Fifty and no/100ths (\$250.00) Dollars for an excavation in a street which has been asphalted or otherwise improved. Any person intending to make excavations in any public street, alley, or other public place may make and maintain with the Director of Public

Works a general deposit which shall permit the issuance of permits for excavations which, at the rates set forth, will not exceed the amount of such deposit. The deposit required herein is waived with regard to any utility properly licensed by the Public Utilities Commission.

Section 3. Section 7-2.04 of Chapter 2 of Title 7 is hereby amended to read as follows:

Such permit shall state whether the work to be done is covered by a general or special deposition and, if a special deposition, shall state the amount thereof and shall be a receipt therefor.

The permit shall also specify the name of the person to whom the permit is issued, the street, alley, or other public place and the particular part thereof to be excavated, the extent of such excavation, and the time

within which the excavation shall be made and the street restored to its former condition.

The permit shall also contain a plan drawn on no less than 1" equal to 10' showing the location of the excavation, dimensions of the trench to be dug and all public improvements within the vicinity of the trench. The permit shall also contain the proposed starting and end dates of the excavation work.

No such permit shall be transferable.

Section 4. Section 7-2.05 of Chapter 2 of Title 7 is hereby amended to read as follows:

In the event of a break or leak in any water or gas pipe, or in the event of any other emergency, immediate repairs may be made, in which event a permit shall be taken out, as required by the provisions of this chapter, within seventy-two (72) hours after the making of such repairs.

Section 5. Section 7-2.06 of Chapter 2 of Title 7 is hereby amended by substituting "City Manager" in place and instead of "Council".

Section 6. Section 7-2.07 of Chapter 2 of Title 7 is hereby amended to read as follows:

The person by whom any excavation shall be made in any street, alley or other public place shall guarantee the work of refilling and the repair thereof for a period of one (1) year after the refilling of such excavation against all defects in workmanship or materials. Whenever within such period of one (1) year any part of the work or place guaranteed becomes in need of repairs, the Director of Public Works shall serve on the person by whom the excavation was made a written notice stating the repairs necessary and requiring such repairs to be made within five (5) days after the service of such notice.

The City shall thereupon proceed to do such work after five (5) days notice, in the event the same is not done to the satisfaction of the Director of Public Works, in compliance with the terms of the notice, and the Director of Public Works shall deduct the cost of any work done or repairs made by him from any and all deposits then on hand belonging to, or which thereafter may be made by, any person required by this chapter to do any work or to make any repairs and who shall have failed, refused, or neglected to perform such work or to make such repairs. The balance of any deposit on hand shall be returned to the

depositor after the expiration of six (6) months from the completion of the refilling of all excavation by such depositor or after the completion of the same by the Director of Public Works.

Section 7. Section 7-2.13 of Chapter 2 of Title 7 is hereby amended in its entirety to read as follows:

Excavation, trenching and backfilling shall be completed in accordance with attachment "A" entitled "Street Excavation and Backfill Specifications."

It shall be the responsibility of the permittee to perform all excavation and backfill work at their sole expense. In cases of streets, alleys or public places paved with asphaltic concrete or concrete, the city shall replace the asphaltic concrete or concrete and deduct the cost of such restoration from the general or special deposit provided by the permittee, and return the remainder, if any, to the permittee following completion of the work by the City. Where the deposit is waived by the provisions of Section 7-2.03, the City will bill the utility, which bill shall be due and payable within twenty (20) days of receipt thereof.

PASSED, APPROVED and ADOPTED this 16th day of October, 1990.

/s/ Hugh T. "Bud" Smith
MAYOR

ATTEST:

CITY OF AVALON PLANNING COMMISSION PLANNING COMMISSION ACTIONS

At the regular meeting of Thursday, October 25th, 1990, the following actions were taken by the Commission:

1. Agreed to hold discussion of establishing a centerline on the Terrace Roads for the purpose of building bulk (height) determination over to a later meeting so the City contact surveyor will be available to participate.
2. Directed the Planning Staff to prepare and distribute Request For Proposals to engineering firms for cost estimates for the private sector to provide complete building inspection/enforcement and plan check services to the City.
3. Agreed to hold the combined NOVEMBER/DECEMBER, 1990 MEETING on DECEMBER 6TH, 1990 at 7:00 P.M., Avalon City Hall.
4. Approved with conditions, a revised Site Plan Application to construct a bathroom addition and excavate a seven (7) foot basement service access to previously-approved demolition/reconstruction of a single family residence at 234 1/2 Claressa Street. Nelson/PC# 1445A Commissioners Burke, Lehr, Harrison, Chairman Fertig: Aye. Commissioners Feinberg and Solomon: Abstain. Commissioner Hill Absent.
5. Approved with conditions a Site Plan Application to remodel windows, construct new decking, stairs and porch cover at the Bayview Hotel, 120 Whittley, Marina Pacifica Properties/PC#1453. All Ayes, Commissioner Hill. Absent.
6. Granted applicant request to withdraw Site Plan Application, Variance Request and terminate Public Hearing for Root, PC# 1426 to remodel and extend into side yards at 222 Claressa Street. All Ayes, Commissioner Hill. Absent.
7. Held a Public Hearing and discussion relative to recommending ordinance changes relating to Conditional Use Permit requirements for transient rentals in residential zones. Agreed to hold the matter over to a later meeting pending an assessment of the requirement and a detailed recommendation from the City of Avalon Housing Advisory Committee.

Further information on these items can be obtained from the Planning Department at City Hall.
